

## **BULK PRINT (SHOEBOX) SCANNING SERVICES**

This service is ONLY for bulk (50+) quantities of photos, and there are [CONDITIONS for this service.](#)

Photos for bulk scanning orders must be un-mounted, not torn or bent, no smaller than wallet size (2" x 3") or larger than 8" x 12".

Mounted prints, instant prints or non standard size photos can be scanned but will be charged at the individual scan prices shown at the bottom of page 11.

Please remove photos from envelopes, album pages, cards etc. If you want to help to keep groups of photographs together, you may want to put an index card at the beginning of each group with some information on it and we'll scan those right along with the photos.

**Technical specifications:** Our standard scanning resolution for this service is 300 dpi. This is adequate for making good copies the same size or up to twice the size of the original photo.

As an **additional option**, your photos can be scanned at 600 dpi. This makes image files that are 4 times bigger, so the files take up more space on your computer's hard drive or on CDs and DVD. Add 50% to the total of the order for 600 dpi scanning.
